

GEOBLASTER® GB1200DT

The GEOBLASTER® GB1200DT offers 650 to 1600 CFM with two 600 lb capacity blast pots. It is available with two 50 ft. blast hoses and fittings, and two XL performance nozzles, as well as pneumatic or 12v safety switches and lines. GEOBLASTER® equipment allows you to regulate blast pressure and uses only a fraction of the abrasive and water of slurry blasting.
