

GEOBLASTER® SA Series

The GEOBLASTER® SA Series offers 185 or 375 CFM with 400 or 600 lb capacity blast pot. It is available with 50 ft. of blast hose and fittings, and XL performance nozzle, as well as pneumatic or 12v safety switch and lines.

GEOBLASTER® equipment allows you to regulate blast pressure and uses only a fraction of the abrasive and water of slurry blasting.
