

AmphiBlast Mini

- Vessel Size 1.5 cu.ft
- Water Tank 15 gals
- Max Working Pressure 150 psi @ 250°F
- Weight
 - With water tank 250 lbs empty
 - Without water tank 190 lbs empty
- Dimensions
 - *AmphiBlast Mini*
 - Height 37 5/16"
 - Length 25 5/16"
 - Width 22 7/8"
 - *AmphiBlast Mini w/ WT*
 - Height 50 1/8"
 - Length 30 5/16"
 - Width 24 9/16"
- Capabilities
 - Wet or dry blast with a single unit
 - Can fit through a 24" doorway with ease(even with on-board tank)
 - Abrasive tank is "dry" because water is injected after the metering valve, so there is no need to drain water to refill with abrasive.

gauge console - adjust pressure, water, change mode
