

AmphiBlast Lite

- Vessel Size 3.5 cu.ft
- Water Tank 15 gals
- Max Working Pressure 150 psi @ 250°F
- Weight *With Water Tank* 270 lbs empty
 - Dimensions 33" L x 23" W x 53" H
 - Capabilities
 - Wet or dry blast with a single unit
 - Can fit through a 24" doorway with ease (even with on-board tank)
- Abrasive tank is "dry" because water is injected after the metering valve, so there is no need to drain water to refill with abrasive.

On-board
water tank
