

Mag Fan D6000 Heater

Uses magnetic heat to generate high volumes of humidity-free, low emissions heat for almost any large area.

- Fan Output 6,000 cfm
- Max Heating Capacity 750,000 BTU/hr
 - Hose 16" x 25' sections
- Dimensions 13'3"L x 6'10"W x 8'8"H
 - Weight 5,700lbs
 - Temperature Rise 200°F+
 - Engine CAT T3 Diesel
 - Fuel Capacity 185-gals
- Fuel Consumption 5.4 gal/hr
- Design Emergency stop button, fork lift pockets
 - Hitch Pintle or Ball

TWWD
