

Mag Fan D6000 Heater

Uses magnetic heat to generate high volumes of humidity-free, low emissions heat for almost any large area.

- Fan Output 6,000 cfm
- Temperature Rise 200°F+
 - Fuel Diesel
 - Engine CAT T3
- Fuel Capacity 185 gals
- Fuel Consumption 5.4 gal/hr
 - Weight 5,700 lbs
- Dimensions 13'3" L x 6'10" W x 8'8" H
 - Hose 12", 16", 20" in 25' sections
 - Hitch Pintle or Ball
- Design Emergency stop button, fork lift pockets
